Petitioners shall notify the Board of County Commissioners 48 hours prior to the actual start of installation. There shall also be a 48-hour notification to the Board before any future maintenance or repair work, except in the case of emergency. In the case of emergency repair notifications will be made as soon as possible. All work by petitioners in the public right-of-way shall be subject to the approval of the Board of County Commissioners, based on the results on the rules listed herein. Petitioners shall notify the Board upon completion of the installation that a final inspection is required.

When paralleling the roadway, it shall be located within four (4) feet of the Right of Way line or the fence line if a fence is in place. If no fence exists, the Right of Way line shall be located by an Oklahoma registered land surveyor at the petitioner's expense. A copy of said survey shall be provided to the Board prior to granting a permit. In no instance shall a line be placed within the limits of the roadbed.

All underground parallel installations shall be a minimum of three (3) feet deep; all overhead parallel installations shall not cross any point of access to the county road at a height of less than 18 feet.

All underground installations which cross a county road with an asphaltic concrete, oil and chip, or concrete surface shall be jacked; Cutting of such "hard surfaced" roads will not be permitted. The Board reserves the right to inspect any work during construction.

All underground crossings shall be a minimum of four (4) feet below the elevation of the centerline of the road or two (2) feet below the elevation of the ditch, whichever is greater. High pressure gasoline/natural gas/combustible products crossings shall be a minimum of four (4) feet below the elevation of the ditch. Schedule 80 pipe the width of the Right of Way is required.

Petitioners agree to assume all responsibility for handling traffic during the construction, repair, and maintenance of this line. Should any lowering, modification or relocation of the line be required during any future reconstruction or maintenance of the road, said lowering, modification or relocation shall be made without claim against the County. Should any damage to the line occur in the regular operation of roadwork, the petitioners, or their successors, without claim against the County shall repair said damage.

Petitioner agrees to hold the County blameless for any damage to persons or property caused by the construction, maintenance operations or repair of its facilities on, or over, or under said right-of-way, and agrees to reimburse the County for any and all monies expended by it in repairing any damage to the road caused by construction, maintenance and operations of the petitioners.

Failure on the part of the petitioners to comply fully with the rules herein stated shall cause the petitioner to forfeit rights to easement on said County Right of Way, as per O.S. 69 1401 1981.
